### Tools used in this guide

- [Fingers](#)

## Step 1 - installation Battery

- Slide the button to the right and hold.

## Step 2

- Slide the battery out.

## Step 3 - *disassembly Upper Case*

- Remove the 7 mm Philip screws.
- Remove the 10 mm Philip screws.
- Remove the 14 mm Philip screw.

## Step 4

- Open the flap on the left hand side.

## Step 5

- Insert the iPod opening tools between the right and left sides of the latch to pry open and release the clips.

## Step 6

- Open the flap on the right side.

### Step 7

- Use the iPod opening tools to pry open the latch and release the clips.

### Step 8

- Lift the keyboard slowly.
- The keyboard is attached to the computer via a cable which can be damaged if not careful.

## Step 9

- Use your fingers or a spudger to detach the connector.

## Step 10

- Remove the keyboard cover.

## Step 11 - Speakers

- Slowly lift the speaker with your fingers.
- The speaker's wires are attached to a connector which can come off easily.

## Step 12

- Use your fingers to unplug the wires from the connector.
