Installing Apple PowerMac G4 Cube Airport Card
Tools used in this guide

- [T10 Torx Screwdriver](#)

Step 1 - disassembly Outer Case

- Release the back handle of the PowerMac. Slowly pull out the cube by holding the end of the handle. Watch for any parts that may become entangled with the outercase.

- Push back the handle after you have taken the core out of the case.
Step 2

- Put the cube onto its backside and remove the four screws on the front plate. Then remove the two screws on each side.
Step 3

● Slowly lift the plate off the cube and disconnect the power cord.

Step 4

● Remove the four pillars from each corner.

● The pillars should come out easily.

Step 5 - Airport Card

● Firmly grasp the airport card on the adapter and pull downward.

● Replace with new airport card.

To reassemble your device, follow these instructions in reverse order.
