

Installing Power Mac G4 M5183 Heat Sink

Tools used in this guide

- [Spudger](#)

Step 1 - disassembly Case

- Pull on outer latch.
- Lower door until it is level with your work surface.
- Before working on the computer make sure it is not plugged into a power supply, then touch a metal object. This discharges static electricity, which could damage the computer.

Step 2 - Heat Sink

- Use the spudger to pry the clips horizontally off of the heat sink.
- Fully remove the clips by lifting upwards.

Step 3

- Remove the heat sink by pulling upwards, off of the logic board.
